Opening the Gateway:
The High-Tech High-Touch Initiative

October 28, 2013
Opening the Gateway Overview

Opening the Gateway is sponsored by the U.S. Department of Education through a Title V grant

P031S100115
Opening the Gateway Overview:
FIU Vision and Mission

Vision
Florida International University will be a leading urban public research university focused on student learning, innovation, and collaboration.

Mission
Florida International University is an urban, multi-campus, public research university serving its students and the diverse population of South Florida. We are committed to high-quality teaching, state-of-the-art research and creative activity, and collaborative engagement with our local and global communities.
Opening the Gateway Overview:
FIU Rankings & Facts

- 50,000: Number of students attending FIU in Fall 2012
- 11,300: Number of students graduating annually from FIU
- 7: on list of largest public universities by enrollment in Fall 2012
- 1: in nation in awarding bachelor’s and master’s degrees to Hispanic students
- 10: among international business programs in the nation

  - English & Mathematics Secondary Education

**FIU**

**Floridiana**

**International University**
Curriculum Development
Curriculum Development

Improving Success in College Algebra

Improving the Teaching of Composition to ESL and Gen 1.5 Students

Increase the Number of English and Mathematics Education Majors
Objective
Implement *High-Tech High-Touch* Program
- Increase College Algebra pass rate to 70% over 5 years
- Increase retention and graduation rates
- Attract more students to become math teachers via the Learning Assistant Program

Summary of the Project Components
*High-Tech*: Computer-assisted learning, State of the art lab with 204 computers, iClickers, Social media
*High-Touch*: 40 hours of faculty lab coverage, 35 Learning Assistants (LAs) provide 200 hours of lab help, 59 sections of Math Gym every week, Personal contact with faculty
*Course Transformation*: Faculty adoption of teaching as a science, provide best learning practices structure for students, purposeful teaching and continuous improvement
Curriculum Development
Increasing Achievement in College Algebra

Course Transformation for College Algebra
• One or two 50-min lectures per week
• 3 hours in the dedicated Mastery Math Lab
• One-hour Math Gym
• Faculty and Learning Assistants (LAs) in the Lab
• Computer-based homework and associated quiz each week
  • 80% pass rate on homework required to take the quiz
  • Quiz can be taken twice
• Faculty & LA Training
  • Weekly meetings
  • Planning and pedagogy
  • Increased contact and communication with students
2) Describe step by step how you would find the domain of the following functions. Justify each step.

\[ f(x) = \frac{x}{x^2 - 16} \]
\[ g(x) = \sqrt{3x - 12} \]

<table>
<thead>
<tr>
<th>Evaluation: What do you expect your final answer to look like?</th>
</tr>
</thead>
<tbody>
<tr>
<td>f(x):</td>
</tr>
<tr>
<td>g(x):</td>
</tr>
</tbody>
</table>

Evaluation: Did your final answer match what you expected? If not, why?
Goal: Increase Student Pass Rate (C or better) by 8% Annually in College Algebra
- The baseline Fall 2010 passing rate for College Algebra was 33%
- Increase to 70% for the AY 2014-15
- AY 2012-2013 had 54% pass rate, project goal for Year 3 was 49%

Outcome:

FIU College Algebra Passing Rates

% of Students Passing Course
0% 10% 20% 30% 40% 50% 60% 70% 80%

- Red: Non-Mastery
- Blue: Mastery
Curriculum Development
Improving the Teaching of Composition to ESL and Gen 1.5 Students

Objective
Adopt changes to the Writing and Rhetoric curriculum in order to address English As A Second Language (ESL) and Generation 1.5 students’ writing needs.

Summary of the Project Components
High-Tech: On-line resources (Moodle platform), locally built ESL tutorial
High-Touch: Professional development workshops for over 50 ENC 1101 and 1102 faculty
Course Transformation: Adopted Universal Design principle, modified course assignments and assessments, incorporated techniques based on the most current research on improving the writing skills of English Language Learners
Course Transformation using Universal Design Principle

1. Use as guide when setting goals:
   - Course and assignment goals
   - Use goals to drive curriculum and assessment
   - Flexibility
   - Respect for students’ strengths

2. Open up new options for students:
   - Tap into the rich linguistic resources
   - Invite use of other languages
   - Include texts by or about multicultural writers

3. Remove barriers for students:
   - Use multilingual models
   - Build in extra time for reading outside of class
   - Descriptive grammar approach
Curriculum Development
Improving the Teaching of Composition to ESL and Gen 1.5 Students

**Course Transformation:** Increased attention to scaffolding large writing projects and clarifying learning outcomes program wide for each major writing project.

**Examples** of altered practices in Writing Rhetoric Gateways sections:
- A broadened literacy narrative assignment
- Focus on research and argument topics related to language, culture and writing
- New multicultural writing/reading models
- Emphasis on rhetorical strategies for proofreading and editing rather than on the language of traditional grammar and correctness

**Outcomes**
- 92% of the instructors trained believe the training had changed, either somewhat or quite a bit, their understanding of ELL students
Curriculum Development

Increase the Number of English and Mathematics Education Majors

Objective
Increase the number of majors in secondary education teacher preparation programs in English and Mathematics to meet critical teaching needs.

Summary of the Project Components
High-Tech: FIU Learn website, CAS Undergraduate Advising webpage, MyMajor.fiu.edu, Panther Audit, MyMajorMatch interest assessment
High-Touch: Dedicated secondary education professional advisor, recruitment specific to English and math, teacher roundtable, Learning Assistant meetings, principal’s forum, orientation, major fairs & open houses
Program Transformation: Degrees in discipline, education courses based on PCK, prerequisites for the discipline degrees, full certification, 120 credit hours
Curriculum Development

Increase the Number of English and Mathematics Education Majors

Program Transformation using discipline-specific, research-validated course redesign.

Bachelor of Arts in Mathematics with Education Major redesign
- Embedded Learning Assistant (L.A.) Program
- 27 upper-division credits of coursework in Mathematics
- 28 upper-division credits of coursework in Education Core with Math or Science approach
  - Math Education (LA) Seminar, Learning Math with Technology, Nature of Math and Science, Perspectives in Math and Science

Bachelor of Arts in English with Education Major redesign
- ESL Endorsed
- 30 upper-division credits of coursework in English
- 30 upper-division credits of coursework in language arts education
  - Teaching Adolescent Literature, Multicultural Literature, Managing Secondary Language Arts Classroom, Modern English Grammar
Curriculum Development
Increase the Number of English and Mathematics Education Majors
Goal: Increase the number of students recruited or converted into English Education and Math Education majors by 8% per year
Faculty Development
Faculty Development

Improving the Teaching of Composition to ESL and Gen 1.5 Students

Training Faculty in Cultural Sensitivity

Improving Success in College Algebra
Objective
Implement a faculty development program in high-tech high-touch teaching in order to improve student writing in composition gateway courses.

Summary of the Project Components
High-Tech: Instructors used on-line resources such as the Moodle platform and locally built ESL tutorial
High-Touch: The English Department has offered professional development workshops for over 50 faculty teaching ENC 1101 and 1102 since summer 2011
Course Transformation: This effort gives our ENC1101/1102 instructional staff access to techniques based on the most current research on improving the writing skills of English Language Learners.
Faculty Development
Improving the Teaching of Composition to ESL and Gen 1.5 Students

Gateways Faculty Support
- Online Gateways Course Material Collections: syllabi, sample activity sheets, additional readings
- Workshops for ENC 1101 and ENC 1102 instructors and TAs
  - Rhetorical Grammar I: Sentence Boundaries
  - Rhetorical Grammar II: Strategies for Clarity and Coherence
  - Writing task representations of multilingual students
  - Addressing errors in multilingual student writing
- Online Tutorials on Multicultural Teaching

Faculty Development Program
- Workshops offered: 18
- Moodle: number of training hours: ~240
Faculty Development
Improving the Teaching of Composition to ESL and Gen 1.5 Students

Faculty Development Outcomes
• By Spring 2013, 23 of 26 (88%) ENC1101/02 instructors were trained in Gen 1.5/ESL teaching strategies

Sections offered:
• In Fall 2012, 44 ENC1101/1102 sections (27%/163 sec.)
• In Spring 2013, 66 ENC1101/1102 sections (50%/133 sec.)
Faculty Development
Improving the Teaching of Composition to ESL and Gen 1.5 Students

New Assessment Measures

- Comparison of course materials from faculty before and after completion of training.
- Analysis of instructor self-reflections during completion of online training modules
- Perception surveys of first-year composition teachers
Objective

Train faculty concerning culturally-aware approaches to teaching Hispanic students and non-native English-speaking students.

Summary of the Project Components

High-Touch: Workshops about culturally-aware approaches to teaching; small group discussions, one-to-one conferences, as needed

- The unique FIU student population and the concept of stereotype threat are undercurrents of all efforts
Phase 1: Determine FIU faculty’s attitudes about and expectations for students, especially as pertains to their race/ethnicity.

Findings:

FIU students...

...have skewed priority systems.
...are not of high quality.
...are not well prepared for college.
...have ESL issues.
...have financial constraints.
...make inappropriate career choices.
Faculty Development
Training Faculty in Cultural Sensitivity

Phase 2: Develop a two-pronged approach

1. Stand-alone workshops about inclusive pedagogy were developed.

2. Focus on stereotype threat.
   • Joshua Aronson delivered a talk “Stereotypes and the Nature and Nurture of Intelligence.”
   • Stereotype threat discussion in College Algebra Summer Institute.
   • Two Whistling Vivaldi faculty working groups.
Faculty Development
Training Faculty in Cultural Sensitivity

**Goal:** Increase percentage of faculty who make changes in their curriculum or pedagogy by 10%

**Outcomes:**

More than 400 instructors have participated in sponsored events
- 27 workshops, 15 book groups sessions, and 3 presentations
- 90% to 97% of surveyed faculty who took part in book group sessions indicated that they made changes to their teaching as a result of the activity.
Faculty Development

Improving Success in College Algebra

College Algebra Summer Institutes

• Full day institutes in Summer 2012 and Summer 2013

• Faculty professional development

• Topics included stereotype threat, motivating students, developing learning objectives, student-centered learning, and high-touch practices

• Developed/revised course and lab structure and policies
Academic Support Services
Academic Support Services

Improve Students’ Reading Skills

Improve Student Performance Through Enhanced Tutoring Services

Use an Early Alert System with First-Semester Students

Increase the Number of English and Mathematics Education Majors
Objective
Use Reading Plus to implement a program in the Humanities with Writing courses to enhance students’ reading skills.

Summary of the Project Components
**High-Tech:** Web-based program that improves reading comprehension and reading fluency while tracking the individual progress of students. Scaffolds reading through individualized assignments based on student performance.

**High-Touch:** As an expansion from the Reading Plus Program to content area reading, tutors apply the Reading Plus benchmarks to reading in the content area. (e.g., World Civilization and Introduction to Psychology)
Academic Support Services
Improve Students’ Reading Skills

Reading Plus Incorporated into FIU Humanities Courses

Faculty provide successful students with extra credit:
In 12 weeks students are required to

• Meet with a reading tutor and take the Reading Placement Appraisal (RPA)
• Complete 40 sessions of Reading Plus
• ‘Level Up’ at least 3 times
• Meet with their assigned reading tutor at 3 designated times in the semester

Participating courses:
• World Civilizations
• Introduction to Psychology
Academic Support Services
Improve Students’ Reading Skills

Reading Plus Interface
Goal: Increase the number of participating students who pass Humanities with Writing with a C or better by 10%

WOH2001 & PSY2012 passing rates
Objective

Enhance tutoring services with a more comprehensive academic support structure using online and face-to-face peer tutoring.

Summary of the Project Components

Online Math & Writing Tutoring

High-Tech: Online Tutors facilitate extra practice time during “after hours” sessions through Adobe Connect. This approach maintains the relationship between students and tutors at the Center for Academic Success by attaching a “high-touch” component to a technology driven, “high-tech” resource.

Fellows Program

High-Touch: Working with a Writing Fellow exposes participating students to the benefits of feedback on their drafts and of planned, timed revision. It also reinforces help-seeking behavior and highlights the value of peer-to-peer learning in a multi-draft environment.
Academic Support Services
Improve Student Performance Through Enhanced Tutoring Services

Writing - Adobe Connect

Math - Bamboo Tablet/Adobe Connect
Online Writing & Math Tutoring

**Goal:** Increase the percentage of satisfaction of students using the online tutoring services by 5% annually

**Outcomes:**

Online Writing & Math Tutoring Satisfaction Rates

<table>

</tr>
</tbody>
</table>
Fellows Program
Improving Student Performance Through Enhanced Tutoring Services

Goal: Increase the number of students earning a C or better (pass rate) in Humanities w/ Writing courses with Writing Fellows by 3% annually

Outcomes

• 81% of students who participated in the student survey during Fall 2012 indicated that their overall interaction with a Writing Fellow was “helpful” or “very helpful.”
• 43 Fellows
• 60 Fellows have served over 1,100 students (4 semesters)
• 6 faculty members have engaged in the project
• Some responses from a faculty survey:
  • Student writing in general is superior to papers written by students without a writing fellow assigned to them
  • Instructors generally found themselves doing less reading and responding to papers of students that worked with a Fellow
Objective
Establish an early alert advising system to monitor first-year students’ progress in gateway courses and immediately designate appropriate resources and staff.

Summary of the Project Components
**High-Tech:** Developed a computer-based early alert advising system that complements other Project Gateway Activities by alerting Undergraduate Education Advisors when first-year students are underperforming.

**High-Touch:** Undergraduate Education Advisors create a holistic relationship between students, faculty, and all members of academic support.
Academic Support Services
Using an Early Alert System with First-Semester Students

Tools
Instructors identify students who are struggling and refer those students to the online Early Alert system.

Categories for Alert
- Attendance
- Assignment Completion
- Class Participation (if required)
- Performance on Assessment
- Self-Management
- Personal Issues
Academic Support Services
Using an Early Alert System with First-Semester Students

Goal: Increase by 3% in the performance and self-report measures of the Early Alert users. Increase the number of students participating in Early Alert.
Objective:
Increase the number of majors in secondary education teacher preparation programs in English and Mathematics to meet critical teaching needs.

Summary of the Project Components
High-Tech: FIU Learn and CAS Undergraduate Advising webpages, secondary education majors available on the online admissions application, student dashboard, Major Map, My Major Match
High-Touch: Teacher roundtable; Learning Assistant meetings; Principals’ Forum for prospective teachers; dedicated advisor; orientation, major fairs & open houses

### Fall Term 2013

Math placement is based on ALEKS scores and classes are to be selected in consultation with an advisor. Pre-Calculus math sequence is MAC1105, MAC1140, and MAC1114 OR MAC 1105 ("B" or higher), and MAC 1147.

Maintain GPA 2.5 or greater. This is a graduation requirement for all teacher preparation programs.

Students in the major must pass all four parts (English Language Skills, Essay, Reading Comprehension, & Mathematics) of the FTCE General Knowledge Test prior to admission into the degree program.

Please see Secondary Education Advisor - 305-346-2976.

Questions

- How might you replicate some of the practices we described at your own institution—with or without additional funds?

- How well does your institution currently meet the needs of Hispanic students? OR How well prepared do you think your institution is to meet the needs of ever-increasing numbers of Hispanic students?

- What do you consider the greatest challenges in enhancing the retention of Hispanic students?

- Has your institution used other approaches to enhance the retention of Hispanic students that might be useful to us at FIU?
Questions & Answers
THANK YOU!
