# Grant Programs Directorate

The purpose of FEMA's Grant Programs Directorate (GPD) is to administer and manage FEMA preparedness grant programs to ensure critical and measurable results for customers and stakeholders.

The focus of GPD is to:

- Enhance the Nation's level of preparedness and the public's ability to prevent, protect, mitigate, respond to and recover from all hazards
- Provide exceptional customer service to all grantees, as well as internal and external partners
- Establish and promote consistent outreach and communication with state, local, territorial and tribal stakeholders
- Ensure transparency in the grant process

# Grant Focus Areas

## ✓ Homeland Security

- Ensures the combined expertise and capabilities of Federal, State, territorial, tribal and local governments, and community-based and private organizations are utilized effectively across all hazards planning and response

## ✓ Transportation

- Enhances the security and preparedness of the Nation's ports of entry and mass transportation systems to protect the traveling public

## ✓ Fire

- Provides equipment, resources and training to enhance fire departments' and community organizations' ability to protect the public and their staff from fire related hazards and injuries

## ✓ Preparedness

Supports communication interoperability, information sharing, critical infrastructure hardening, and emergency management resources and personnel

**Homeland Security**

# Preparedness Expenditures

## Planning

Assists grantees in developing policies and procedures to coordinate and execute tasks for all hazards management

## Exercises

Fosters opportunities to demonstrate, evaluate, and improve the combined capability of the Nation's first responders and local communities

**Homeland Security**

## Equipment

Provides tools and materials to execute missions; without radios, generators, and rescue vehicles, emergency responders lack the means to carry out tasks

## Organization

Ensures grantees possess the right resources, leadership, and organizational structure to best protect against major incidents

## Training

Prepares the public and first responders to act in a coordinated fashion in a time of emergency

## Major FY 2015 Highlights

- In FY 2015 all grant programs, with exception of the Emergency Management Performance Grant program, have a 36-month period of performance. This compares to the 24-month period of performance that has been in place since FY 2012.
- 28 UASI jurisdictions were funded in FY 2015 based on Congressional “expectation” that limits Urban Area Security Initiative (UASI) funding to 85% of the total risk. This compares to 39 UASI jurisdictions that were funded last year.
- In FY 2015, the Port Security Grant Program eliminated port groupings. All applicants were selected for funding based on a scoring system that considers port area risk and effectiveness of the proposed investment.
- Under the Port Security Grant Program both public and private entities are required to provide the same level of match (25 percent of total project costs).
- The Intercity Bus Security Grant Program was reinstated after a 3-year funding hiatus.

# Authorized Equipment List (AEL)

- The Authorized Equipment List (AEL) is published by the FEMA Grant Programs Directorate.
- The AEL serves as a guide for grant recipients, but is not all-encompassing and often grantee requests must be reviewed on a case-by-case basis.
- The Authorized Equipment List (AEL) was developed, in part, based on congressional intent to build anti-terrorism capabilities.
- Dual use permitted as long as items build anti-terrorism capabilities.
- Updated periodically to include additional equipment items at request of stakeholders.
- Weapons and ammunition have always been prohibited.

# Allowable Equipment Categories

- Grantees may purchase first responder equipment in the following categories (number of categories has increased every year):
  - Personal Protective Equipment (PPE).
  - Detection Equipment
  - Decontamination Equipment
  - Interoperable Communications Equipment
  - Terrorism Incident Prevention Equipment
  - Explosive Device Mitigation and Remediation Equipment
  - Physical Security Enhancement Equipment
  - Medical Supplies/Pharmaceuticals
  - CBRNE Logistical Support Equipment
  - CBRNE Incident Response Vehicles/Aircraft/Watercraft
  - CBRNE Search & Rescue Equipment
  - CBRNE Reference Materials
  - Agricultural Terrorism Prevention, Response & Mitigation
  - Cyber Security
  - Intervention Equipment
  - Citizen Corps specific equipment

# General Grant Writing Guidance

- Develop a relationship with your State Administrative Agency (SAA) so that they understand who you are and what your needs/capabilities are;
- Read the Notice of Funding Opportunity (NOFO) so that you can understand all the ins and outs of the grant;
- Write clear, concise, scalable investments;
- Always have some quickly executable projects ready in case you receive grant funding with a short Period of Performance (POP).
