

Championing a Diversity, Equity and Inclusion Strategic Plan

Questions to start the conversation:	Notes:
How might you approach taking the campus temperature?	
What are the assets to making this happen?	
What are the possible obstacles?	
Who are the potential partners/collaborators?	
Who has ownership of the plan?	
What is a realistic timeline for creating, initiating, goal establishment and completion?	
If you already have a plan, what are next steps?	
What are you able to move forward?	
Where are you stuck?	
Who do you need at the table? (before, at the beginning, on-going)?
