The HSI Network of Wisconsin

The HSI Network of Wisconsin (HSI-NOW) is a coalition of leaders from higher educational institutions in southeast Wisconsin that have obtained or are working toward the federal designation of Hispanic-Serving Institution (HSI) and are committed to attracting, supporting, retaining, and graduating underrepresented students. HSI-NOW member institutions share information and best practices, seek out collaborative opportunities to address challenges, and engage with and serve as a resource for the broader community. By tapping into the unique strengths of each institution and creating an infrastructure of mutual support, HSI-NOW collectively builds capacity to graduate an increasing number of underrepresented students in the region and to truly serve all of our diverse community stakeholders.

Who is HSI-NOW?
