IES Abroad Customized & Faculty-Led Programs has been running unique and tailored study abroad programs for more than 50 years. Let them turn your idea into a reality for you and your students.

The IES Abroad Faculty-Led STEM Program Award will provide funding towards two outstanding, STEM-focused programs, chosen by a panel of IES Abroad staff members. The winning institution will receive $15,000 and one runner up will receive $5,000 towards a two- to four-week, faculty-led study abroad program during the Spring or Summer 2019 term.

**HOW IT WORKS**

- Review official rules and complete the entry form by **Friday, October 12, 2018, at 4:30 p.m. CST** at www.IESabroad.org/faculty-led-stem-program-award
- Proposals will be reviewed by a panel of three IES Abroad staff from the Academics Department
- Judging of proposals will be based upon:
  - How well the program fosters learning in STEM field(s)
  - If the academic program engages students in the intellectual, political, cultural, and/or social institutions of the host country
  - How well the chosen location is used as a learning resource
  - If academic excursions and field trips led by qualified guides are integrated into the program
  - Suggested topics for guest speakers and/or field trips
- Winners will be chosen by the panel and announced on or by **Friday, October 26, 2018**
  - One winner will receive $15,000 towards their IES Abroad program
  - One runner up will receive $5,000 towards their IES Abroad program

**CRITERIA**
