RESEARCH PROGRAM

Participate in the 2023-2024 *All of Us* Research Scholar Program

The annual *All of Us* Research Scholar Program offers student researchers, known as research scholars, the opportunity to work with mentors on a research project that uses the *All of Us* Data Browser or Researcher Workbench. The 2024 Research Scholar Program will run from September 2023 through March 2024. The program champions scholars from underrepresented communities and connects them with a network of peers and mentors to support diversity in the biomedical workforce. The eight-month program provides scholars with dedicated mentors, professional development opportunities, hands-on experience conducting health research, and the opportunity to participate in the ***All of Us* Researchers Convention**.

Recruitment for the next cohort begins in August!
