

2023-2024 *All of Us* Research Scholar Program

Student Guidelines & Eligibility

About the *All of Us* Research Scholar Program

The annual *All of Us* Research Scholar Program (RSP) offers student researchers the opportunity to work with mentors on a research project that uses the *All of Us* Data Browser or Researcher Workbench. The program supports students from diverse backgrounds, including those from groups that have been shown to be underrepresented in the biomedical research workforce. The eight-month program provides students with professional development opportunities, hands-on experience conducting health research, and the opportunity to participate in the *All of Us* Researchers Convention.

Student Eligibility

- Must be enrolled as a high school, undergraduate, graduate, or professional degree student for the 2023-2024 academic year in the United States
- Be available to participate in the Research Scholar Program from September 2023 through April 2024

Expectations & Responsibilities of Student

Application deadline: September 8, 2023

All of Us has an interest in increasing the diversity of our biomedical research workforce. The program encourages researchers who identify as belonging to one or more groups or communities that are underrepresented in the biomedical research workforce to apply as students or mentors. Groups that have been shown to be underrepresented in the biomedical research workforce, as described in NIH's Notice of Interest in Diversity (NOT-OD-20-031).
